APPLICATIONS CAN BE OBTAINED FROM SUPPLIERS, OR IN THE CITY HALL LOBBY, AT 211 W. ASPEN AVENUE, FLAGSTAFF, AZ 86001. APPLICATION INFORMATION IS PROVIDED ON THE BACK OF THIS FORM. IF YOU NEED FURTHER ASSISTANCE, PLEASE CALL (520) 779-7646.

1. Applicant purchases and installs the toilet.
2. Applicant **MAILS** a completed Toilet Rebate application and sales receipt to the address listed above. The application will then be approved and processed for payment.
3. Within 4 to 6 weeks after submitting the completed application and sales receipt, a check will be mailed or a credit made to the applicant's utilities account.

LOW-FLOW TOILET REBATE POLICY

PURPOSE

The intent of the Low-Flow Toilet Rebate Policy is to reduce the amount of indoor water use by Flagstaff water customers through the conversion to toilets not exceeding 1.6 gallons of water per flush. The Rebate will be in effect based upon annual approval by the Flagstaff City Council and availability of funds.

REQUIREMENTS

The following guidelines have been established to qualify for receipt of a Low-Flow Toilet Rebate:

1. Applies to replacement of existing high-flow toilets. Each replacement toilet must not exceed 1.6 gallons of water per flush, and replace a toilet using more than 3 gallons per flush.
2. To be eligible, applicants must be Flagstaff water customers with **current** accounts. The toilet must replace an existing high-flow toilet at a property within the utility service boundary.
3. The applicant must provide an original sales receipt for the purchase of each toilet to verify the actual cost to the water customer. The Rebate does not cover the cost of additional parts and/or labor for the installation, or sales tax.

REBATE

Provided the applicant meets the criteria listed above, a rebate will be issued for the amount of 50 percent (50%) of the purchase price less any rebate or discount of each toilet up to a limit of \$100.00 per toilet. A cash rebate will be mailed to the applicant, or a credit will be applied toward the applicant's water bill.

LOW-FLOW TOILET PURCHASES

Models of 1.6 gallons per flush toilets are available in a wide range of colors and styles from plumbing supply stores and through licensed plumbers. Researching the cost and performance of the various designs offered before you buy will help you obtain a fixture that meets your needs.
